Compassion > Action > Impact

At Seyfarth Shaw, we are committed to playing an active, positive role in the communities in which we work and live. We believe that leadership means taking the initiative to help our fellow citizens. As the firm has grown, our opportunities to give back to our communities also have increased.

We take a holistic approach to giving back to our communities by integrating our pro bono legal services, charitable giving, community service and sustainability activities. We have a Pro Bono & Philanthropy department, which consists of a partner and coordinator, both of whom dedicate their time to promoting and managing these programs. Our approach is an example of how we carry out our core value of innovation, and we believe it is unique among large law firms.

Our programs follow our guideposts of **Compassion, Action and Impact**: we care about our communities and our planet, so we take action to preserve and improve them, with our goal being to make a meaningful difference in people's lives.

Our Managing Partner, J. Stephen Poor, says, "As an organization, Seyfarth Shaw is committed to being an outstanding corporate citizen and an active contributor to our communities. Whether through our pro bono activities, the charitable grants made by our charitable foundation, or our other community service programs, the people of Seyfarth Shaw have embraced this commitment enthusiastically. We are incredibly proud of the work our people are doing and the ability of the firm to support that work. We truly hope that, through our efforts, we are able to improve individual people's lives and strengthen our communities as a whole."
