The Workplace Safety and Health (OSHA/MSHA) Practice Group assists clients in navigating state and federal safety and health laws to find practical business solutions to workplace safety and health problems.

We are counselors, advisors, negotiators, trial lawyers and appellate advocates with respect to all elements of workplace safety and health laws, and we take a practical, efficient, hands-on approach to addressing issues arising under those laws. We have deep experience in the full spectrum of workplace safety and health matters arising under the Occupational Safety and Health Act, state health and safety plans, and the Mine Safety and Health Act. Members of our Workplace Safety and Health Practice Group assist clients with compliance, internal audits, expert retention and evaluation, agency inspections, catastrophe response, litigation, and appeals. Our working relationships with many federal and state regulatory agencies provides us with practical insights often needed to solve unique client dilemmas. Our philosophy is simple: we use our deep subject matter expertise to quickly identify key issues and develop practical strategies to achieve the best possible result for our clients.
