

## Kids in Need of Defense

Kids in Need of Defense (KIND) was founded in 2008 by Microsoft and actress and humanitarian Angelina Jolie and is the leading organization dedicated to the protection of children who enter the U.S. immigration system alone. The mission of KIND, which works with thousands of trained pro bono lawyers across the United States, is to make sure that no child appears in immigration court without representation. Since 2010, including this Diamond Donation, Seyfarth has contributed **\$141,000** in charitable donations to KIND, and our attorneys and paralegals have dedicated more than **10,000** hours of pro bono time to represent more than **100** children.

In addition, in 2012, KIND became our first pro bono Seyfarth*Lean* client when we completed a process improvement project to streamline its operations across all of its offices nationwide.
